

DESCRIPTION

A double-sided panel with gears that rotate to provide interesting visual effects. An additional rotating element in the form of a key is also included. Ideal for developing fine motor skills, supporting children's curiosity, and enabling discovery and sensory experience. Construction: load-bearing posts made from stainless steel pipes with a diameter of 76.1 mm; Anchoring: directly in the ground; Panel: made from flexible high-pressure polyethylene HDPE (15 mm); Steel components: fittings and connectors made from stainless steel.
